WORK EXPERIENCE

September 2023 – Present

Product Manager, Product Management

Giga Tech Limited

- Led end-to-end ERP and enterprise software implementation projects, ensuring successful delivery and business process optimization.
- Managed and configured SAP MM (Materials Management) and SAP HCM (Human Capital Management) modules based on business requirements.
- Oversaw procurement lifecycle processes, including requirement analysis, workflow design, and system configuration.
- Coordinated with stakeholders, business users, and cross-functional teams to gather requirements and deliver effective solutions.
- Collaborated with ABAP developers to implement custom enhancements, integrations, and management reports.
- Managed SAP MM integration with Sales & Distribution (SD) and Quality Management (QM) modules.
- Conducted Unit Testing, Integration Testing, and User Acceptance Testing (UAT) to ensure system quality and business readiness.
- Prepared and maintained project documentation, including SRS, FDD, SDD, user manuals, and process documentation.
- Led product development initiatives for Reimbursement Management Systems, Migrant Job Portals, and other digital solutions.
- Managed ERPNext solution development, customization, implementation, and post-deployment support for organizational operations.

November 2017 – August 2023

Sr. Manager, Project Management

Pridesys IT Ltd.

- Led end-to-end ERP implementation projects across government, telecom, manufacturing, garments, and private sector organizations.
- Managed the complete Software Development Life Cycle (SDLC), from requirement gathering to deployment and post-implementation support.
- Conducted business requirement analysis and transformed business needs into functional and technical specifications.
- Prepared and maintained project documentation, including BRD, SRS, FDD, use cases, process flows, user manuals, and training materials.
- Defined project scope, objectives, deliverables, timelines, and resource allocation plans.
- Led project planning, execution, monitoring, and control activities to ensure successful project delivery.
- Collaborated with cross-functional teams, including developers, QA engineers, UI/UX designers, and business stakeholders.
- Managed stakeholder expectations and facilitated effective communication between business and technical teams.
- Conducted risk assessment, issue management, and mitigation planning throughout the project lifecycle.
- Coordinated system integration, quality assurance, User Acceptance Testing (UAT), and production deployment activities.
- Delivered user training, change management, and post-go-live support to ensure successful system adoption.
- Contributed to the design, development, and enhancement of ERP, CRM, HRM, Inventory, Procurement, and other enterprise solutions.
- Led product development initiatives, feature planning, process optimization, and continuous improvement programs.
- Demonstrated strong leadership, team management, presentation, communication, and problem-solving skills while delivering high-impact technology solutions.
